O R D E R

IT IS ORDERED that South Central Bell Telephone Company ("SCB") shall file an original and 15 copies of the following information with the Commission on or before 12 noon October 6, 1983. Each copy of the data requested should be placed in a bound volume with each item tabbed. When a number of sheets are required for an item, each sheet should be appropriately indexed, for example, Item 1(a), Sheet 2 of 6. Include with each response the name of the witness who will be responsible for responding to questions relating to the information provided. Careful attention should be given to copied material to insure that it is legible. Where information requested herein has been provided along with the original application, in the format requested herein, reference may be made to the specific location of said

information in responding to this information request. When applicable, the information requested herein should be provided for total company operations and Kentucky jurisdictional operations, separately. If neither the requested information nor a motion for an extension of time is filed by the stated date, the case may be dismissed.

1. (a) Please provide any and all studies, analyses, workpapers, memoranda, or other documentation, including all allocation factors, utilized in the development of inside wire maintenance costs.

(b) Provide an explanation of the manner in which inside wire maintenance costs were developed. Has SCB developed inside wire maintenance costs separately for residence and business customers? For complex and simple inside wire? If so, please provide these disaggregated costs.

2. Provide the following data:

1. Total CPE revenues.
2. Net investment value of CPE being transferred to

AT&T.

3. Monthly revenue requirement associated with the net investment being transferred to AT&T.

Provide this data separately for two-tier and contract services.

3. Has SCB entered into, or contemplated entering into, an agreement with AT&T to reimburse SCB for the inside wiring associated with the CPE services being transferred to AT&T.

4. What entity will bill customers for embedded terminal equipment upon transfer of that equipment to AT&T? If no final decision has been made, provide the proposed billing arrangements, and state when a final decision will be made.

5. (a) Provide any and all cost support, including cost studies, workpapers, analyses, memoranda, or other documentation for SCB's Volume Measured Service proposals.

(b) Have costs been developed on a separated or non-separated basis?

6. Provide any and all cost support, including cost studies, workpapers, analyses, memoranda, or other documentation for SCB's grouping service proposals.

7. Provide an update of SCB's wage and salary expenses, based upon the negotiated basic contract with the Communications Workers of America. Indicate the dollar difference between the updated expenses and the estimates filed in Mr. Ballard's testimony.

8. Will BellSouth's proposed subsidiary for directory operations include Yellow Pages? If so, indicate how revenues and expenses will be allocated to South Central Bell's regulated operations.

9. Provide a copy of the updated exchange cost study, including associated workpapers and documentation, referred to in the Company's response to the Attorney General's Request No. 1, question M-6. Identify any and all changes that have been made to the original study.

10. Provide a copy of all workpapers and documentation relating to the cost results presented in Company responses to Staff Request No. 1, questions 42 and 49.

11. (a) Please describe all methodologies, guidelines and programs, other than CUCRIT, employed by SCB in evaluating the costs and benefits, to both ratepayers and the Company, of replacing plant in service with new plant which utilizes new technologies.

(b) In evaluating the consequences of replacement of plant currently in service, how does SCB account for the undepreciated plant involved?

(c) Does SCB track the actual changes in revenues received as a result of the introduction of plant utilizing new technology and compare the revenue actually received with the projected figures?

12. Has the Company conducted any cost studies supporting existing outside base rate area charges? If so, please provide any and all such studies, including workpapers and documentation.

13. With respect to the current strike at South Central Bell, provide:

(a) the number of employees that were on strike and their total daily compensation on a total company and intrastate basis,

(b) associated estimated scheduled overtimes, differentials and all fringe costs saved due to strike activities, and

(c) expense and capitalized breakdowns as well as present intrastate separations factors for the above details.

14. Provide any incremental expense you claim is associated with the strike, i.e., overtime pay for management workers, added security, greater or less settlement division of revenues.

(Show: expenses, capitalizations, and separations).

15. Provide the actual and budgeted income statement for the month of August 1983 and identify any differences which are not strike related.

Done at Frankfort, Kentucky, this 27th day of September, 1983.
